## WALL ANCHORS - NEW!

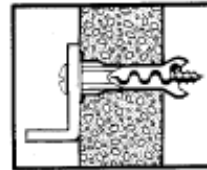

### ALLIGATOR

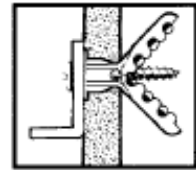

In any wall thickness:

in solid wall  
(fins wedged)

in thick wall  
(fins wedged)

in hollow dry wall  
(fins cut into wall)

The ALLIGATOR solid-wall anchor is the only anchor that extrudes the *entire* length of the screw.

The screw extrudes and compresses the anchor polymer into the wall of the hole under tremendous pressure. The anchor molds and conforms exactly to the surface of the hole—*without* chemicals.

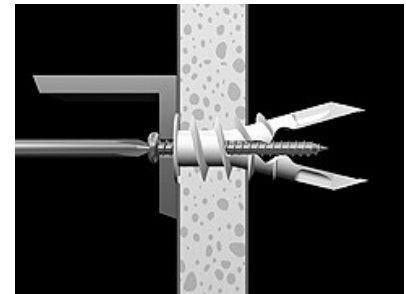

ANGT-3600	3/16" Alligator 100/Box
ANGT-1400	1/4" Alligator 100/Box
ANGT-5600	5/15" Alligator 100/Box
ANGT-3800	3/8" Alligator 100/Box
ANKG-1406	1/4" Alligator Kit 100-Anchors/Screws

**New!**

### SNAP-SKRU

The TOGGLER® SnapSkru™ SP™ anchor is the industry's first self-drilling drywall anchor that does **NOT** destroy the drywall when using the anchor. It is a **true anchor**, not just a small screw in a big screw like our competition!

The SnapSkru SP anchor significantly outholds all other self-drilling drywall anchors by more than 60% in 1/2" drywall, and by more than 80% in 5/8" drywall.

ANKS-0050 Kit 50 Anchors/50 Screws

### HAMMER-SCREW™

ANZH

PART NUMBER	MATERIAL	SIZE	BOX QTY
ANZH-1410	ZAMAC HAMMER SCREW	1/4" X 1"	100
ANZH-1412	ZAMAC HAMMER SCREW	1/4" X 1-1/4"	100
ANZH-1415	ZAMAC HAMMER SCREW	1/4" X 1-1/2"	100
ANZH-1420	ZAMAC HAMMER SCREW	1/4" X 2"	100

The Zamac Hammer-Screw is a unique, one-step nail drive anchor featuring a Phillips type head and a screw thread for use in concrete, block, brick or stone. It is available in 1/4" diameter and lengths ranging from 3/4" to 3". With a body formed from corrosion resistant Zamac alloy and a carbon or stainless steel drive screw, this anchor has been developed as an improvement over standard nail anchors.

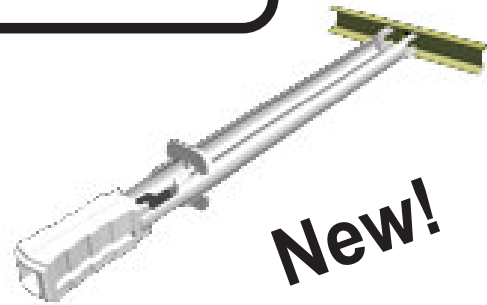

Traditionally, Zamac Nail anchors have been used for light duty, non-engineered applications and have not been recommended for use overhead. In order to overcome these problems, the Zamac Hammer-Screw has been designed to provide a removable anchor with up to 40% higher tension load capacities when installed in concrete.

## WALL ANCHORS - NEW!

SNAPTOGGLE® anchors gets their name from their speed and ease of use; they work in a **SNAP!** New longer and stronger plastic straps now work in base materials 3/8" to 3 5/8" thick and will not break prematurely like other plastic straps. The straps snap off flush with the wall every time, assuring precise alignment. And the metal channel pushes aside insulation and has a new plating that is 7x more corrosion-resistant than B633-85 Type III/Sc 1 government spec high quality zinc plating

### WALL-DOG

PART NUMBER	DESCRIPTION	STYLE	BOX QTY
ANWD-1400	Wall-Dog Chrome	Oval Head	100
ANWD-1401	Wall-Dog Chrome	Pan Head	100
ANWD-1402	Wall-Dog White Head	Oval Head	100
ANWD-1403	Wall-Dog White Head	Pan Head	100

The Wall-Dog™ is an all steel, one piece, threaded fastener, which is used to fasten various fixtures directly to drywall. Wall-Dog™ fasteners are fast. Unlike conventional screw anchors, which require the secondary step of threading a sheet metal screw into an anchor, the Wall-Dog™ is installed directly through the fixture into the drywall.
